Education

York University, Bachelor of Engineering in Software Engineering *Expected Dec. 2027*
Coursework: Data Structures and Algorithms, Object-Oriented Programming (Java), Operating Systems, Databases

Projects

z9bra | *Next.js, TypeScript, PostgreSQL, Python, OR-Tools* Live | GitHub | Jun 2026

- Shipped a Wordle-style daily logic puzzle that reached **500+ players** and **60 daily actives**.
- Wrote a Python generator that uses CP-SAT to prove every puzzle has **exactly one solution**.
- Synced streaks across devices through Google OAuth and a PostgreSQL data layer.

OverTerm | *Rust, Tauri, TypeScript, GitHub Actions* GitHub | Oct 2026

- Built an open-source terminal that detects when **AI coding agents** finish or need input.
- Merged **7 pull requests from 2 other contributors**; CI builds it on macOS, Linux and Windows.
- Root-caused 2 misdiagnosed bugs (lost keyboard focus, replies sent to the wrong tab).

BundesPredict | *Python, FastAPI, PostgreSQL, Docker, Anthropic SDK* Live | GitHub | Jul 2026

- Hand-wrote a Dixon–Coles model and backtested it on **1,827 matches** against bookmaker odds.
- Built a FastAPI and PostgreSQL service with SQL upserts and a weekly GitHub Actions refit.
- Added an **LLM tool-calling agent** whose adjustments are clamped by the server.

Deximon | *Python, FastAPI, PostgreSQL, React, Docker* Live | GitHub | Summer 2026

- **Largest contributor** on a 6-person team (66 of 140 commits) to a live trading-card platform.
- **Reviewed 8 teammate pull requests** and fixed an N+1 query on the marketplace feed.
- Built card binders end to end: React UI, FastAPI REST API, normalized PostgreSQL schema.

Lab Equipment Reservation System | *Java 17, JavaFX, JUnit 5, Maven* GitHub | Dec 2025

- Co-built a layered Java app (Facade over DAO) with State, Strategy and Factory Method patterns.
- Used the State pattern so an invalid booking transition throws instead of corrupting a record.
- Added **1,086 Randoop-generated** regression tests, with JaCoCo coverage and PItest mutation testing.

Technical Skills

Languages: Python, TypeScript, Java, SQL, Rust, JavaScript
Frameworks: React, Next.js, FastAPI, Django REST Framework, Tauri
Tools: PostgreSQL, Docker, GitHub Actions, Git, Linux, AWS, Vercel, JUnit, pytest
